Graphic designer and QA engineer with 6+ years in brand, marketing and digital product design, and a background in web development and IT operations. I design identities, campaigns and UI assets in Illustrator, Photoshop and Figma, then test the products they ship in — functional, visual and cross-device — with clear, reproducible bug reports.

EXPERIENCE

Graphic Designer & QA Engineer · Kakushin
Dec 2025 – Present

Bahria Town, Rawalpindi

- Design logos, UI icons, publications, posters and social campaigns for 20+ internal products and client brands.
- QA-test web and mobile products before release — functional, UI and cross-device checks with reproducible bug reports.
- Partner with product and marketing teams to turn requirements into cohesive design solutions.
- Own brand consistency across digital and print while shipping on tight weekly deadlines.

Graphic Designer · Golden Home
May 2024 – Nov 2025

Islamabad

- Produced multi-channel marketing: brochures, posters and social media sets.
- Contributed product layout concepts in collaborative design sprint sessions.
- Kept every public-facing asset aligned with brand standards across concurrent deliverables.

Graphic Designer · Gold Pine Murree
Dec 2021 – Dec 2023

Islamabad

- Built visual identities, brand guidelines and promotional collateral.
- Produced vector artwork, custom iconography and marketing media for digital and print.
- Shaped creative concepts around sales and customer-acquisition goals.

Graphic Designer · InterHome Enterprises
Dec 2019 – Dec 2021

Islamabad

- Led layout design and visual assets for digital marketing and print campaigns.
- Supported lead designers in building consistent visual strategies across channels.

Store Officer · Global Laboratories
Apr 2017 – Dec 2018

Islamabad

- Supervised inventory operations, incoming stock validation and documentation.
- Used stock analysis to set reorder thresholds and guide procurement.

IT Officer · Mr. Cabin Public High School
2014 – 2016

Rawalpindi

- Managed IT infrastructure, network security, vendor procurement and troubleshooting.
- Designed and built the school website and ran internal SMS communications.
